Floralwood Hemerocallis

In this, our first listing of Hemerocallis, our main object is to give you varieties that have proven their worth, give you large and healthy plants, ones that will bloom for you the first year, and at prices that the average collector of fine "hems" can afford to pay. In addition to our own large plantings we have recently acquired the entire collection of the Iris Test Gardens, and also, the very complete collection of the late Mr. Luke Norton which puts us in position to offer you the world's finest hems.

(DAYLILLIES)

We now grow over 500 varieties including the very best of the older sorts and most of the new ones. The asking price on a variety does not determine the value, it merely reflects the ability of the particular variety to propagate in most cases.

We shall make both spring and fall deliveries and will accept orders for spring deliveries up to April 1st and for fall delivery up to October 10th.

TERMS ON HEMEROCALLIS ONLY

Discounts on daylillies make this listing automatically a retail and wholesale listing and are as follows: Orders to \$10.00 net list price; 20% discount on orders \$10.00 to \$24.00; 30% discount on orders \$25.00 and up. Shipments will be made via Parcel Post, prepaid to your door unless you wish otherwise. Minimum order is \$3.00. All deliveries dependent upon present stock and prior orders.

If there should be some variety that you desire that is not listed, it is probable that we have it, but not in large enough quantities to list. Prices on such items are a matter of correspondence.

ALEXIA: Our 1950 introduction, a symphony in finest yellow	3.50	EBONY BOY: Rich red purple, gold cup, very colorful	2.00	JIMMIE JR.: Burnt orange and yellow, very beautiful	.75

Tejas .50	
The Director .75	
Catalog \$7.05	
The dozen prepaid for \$5.50	

IT IS A MARK OF DISTINCTION TO WIN AT YAKIMA

Owing to the insistent demands of the Western and Canadian commercial and amateur growers alike, the Yakima Valley Gladiolus Society will stage the third great western show at Yakima August 4th and 5th, 1951.

The very finest in accommodations, controlled temperatures in the show rooms, plus heavy entries and attendance, make this great exhibition one of the outstanding shows in America today.

Floralwood Gladiolus

We have been on the buying end of the gladiolus deal for a number of years with varied success, and it has been upon the insistant demand of our many "glad" friends that we are now presenting our first listing of prize winning gladiolus. It shall be a very modest list, and it will be upon your demands that it will grow.

We grow over 400 varieties, a great many of which should never have been introduced and we are ruthless in weeding out the undesirables.

You may rest assured that every item we list has been a good performer with us. We shall endeavor at all times to plainly state the faults of any variety we list, some items being fine in spite of their inherent faults.

In our buying in the past, we have always appreciated the extras and overcount that many of the good growers have allowed us, and with this in mind we shall ever try to be very liberal in our transactions.

PRICES AND TERMS

We believe that our prices will be in line with any and all reputable growers, and we will not knowingly cut the prices of any originator's or introducer's controlled prices of newer varieties.

Terms: Cash with order, or 25% with order, balance before shipment. Shipment shall be made via Parcel Post prepaid to your door and shipping time shall be February 15th, weather permitting, or, earlier if requested. Minimum order \$3.00.

Sizes: We are listing in Large, Medium and Small and sizes shall be in line with commercial sizing and grade and where stock permits we shall increase sizes in the medium and small. Your best buy in gladiolus is always in the smaller sizes.

Guarantee: Our stock is all grown in deep, sandy soil and in ground that has never grown gladiolus before. They are hand dug, cleaned and graded and we guarantee all stock to be true to name and guarantee safe arrival. No guarantees beyond this point, ground conditions being beyond our control.

Following listing shows the Classification, Variety, followed by the number of days to bloom. All prices shown are for 10 bulbs unless shown otherwise, 5 bulbs may be purchased at one half the 10 price. Package contains a generous amount, from 50 to 100 or over.
